Dear Friend,

Thank you for your enquiry into voluntary employment at El Shaddai Ministry (ESM).

Your enquiry is appreciated, as volunteers are an essential part of the network at ESM. People like yourself, and the Coertzen family each volunteer services to ensure all funds received at ESM can be used toward the care and education of the children living at ESM as well as those in need living in the surrounding community.

However, just as with any type of employment, it is essential that ESM ensure volunteers are suited to the work in Swaziland and that those selected are willing to become part of the ESM family during their stay.

Included with this letter is a brief background history on ESM, a list of guidelines we ask volunteers to commit to while working at ESM, and a personal information response page. Please read through the following pages and take time to prayerfully consider whether volunteering at ESM is suitable and possible for you.

Please complete the application as well as any additional information we have requested. Your entire application package should be mailed to 'Compassionate Life' at the above addresses for processing.

You are most welcome to contact us if you have any questions relating to this information package.

God Bless,

Charmain Coertzen

Executive Director of ESM
